

# **College of Engineering Karunagappally**

**Dear Students and Parents,**

The College of Engineering Karunagappally warmly welcomes the newly admitted B.Tech students to the academic year 2026-27.

To help students make a smooth transition from school to college, the College has organized a four-day Student Induction Programme from 10 August to 14 August 2026 and a bridge program from 17 August to 20 August 2026. The induction programme has been carefully designed to familiarize students with the academic environment, campus facilities, student support systems, and the numerous opportunities available for their holistic development. The bridge programme helps learners adjust to new systems, fills fundamental knowledge gaps, and builds the confidence required for upcoming academic or career challenges.

The induction programme includes:

- Inaugural session and interactions with the Principal and Heads of Departments.
- Motivational talks by eminent academicians and industry professionals.
- Yoga and wellness sessions to promote physical and mental well-being.
- Sessions on stress management, legal awareness, and student support services.
- Alumni interactions to inspire students through real-life experiences.

- Introduction to co-curricular and professional student organizations such as IEEE, TinkerHub, FOSS, MuLearn, IEDC, NSS, ARCEK, GDG, W3 Forge, PWLK, and the Training & Placement Cell.
- Opportunities to explore cultural and extracurricular activities through the Music and Dance Clubs.

Parents are requested to encourage their wards to attend all sessions of the induction programme, as participation will help students adapt confidently to college life, build meaningful connections, and begin their engineering journey with the right mindset.

We look forward to welcoming our new students and wish them a rewarding and successful academic journey at the College of Engineering Karunagappally.
